WHO WE ARE

Dove Tail Bat is family owned and operated and located in northern Maine with "quality products" and "extreme quality service" as our number one goals.

Our bat making originally started simply to provide our son with his own personalized wood bats and this bat making soon spread to supply his friends and teammates. More rapidly than anyone could predict, minor leaguers and agents began requesting Dove Tail Bats and the need for MLB approval became evident. The players at this level of play repeatedly commented on the balanced feel and exceptional pop when swinging DTB's as well as the superior finish these bats have. These characteristics were naturally transferred to our bats as the design and manufacturing are done by the owners of Dove Tail Bat; an ex-professional ball player and a lifelong cabinet maker.

At Dove Tail Bat we take pride in incorporating quality, integrity, and respect at all levels of our business; from the product that we design and manufacture, to the customer service that we offer. This is evident in the personalized design and balance felt in each of our bats so that every player who orders a Dove Tail Bat receives the best quality product available for their level of play. Simply stated, every player is a Big League Player to us as they strive to "Rise Above The Rest" in their career.

CUSTOMIZE YOUR BAT

COLOR

[COLORS] ARE NOT AN EXACT AND MAY REACT DIFFERENT DEPENDING ON WOOD.

LOGO

[LOGO COLORS] ARE NOT AN EXACT AND MAY REACT DIFFERENT DEPENDING ON WOOD.

SIZES

Bat lengths available in 32"-35.5" in 1/2" increments

WOOD

ASH

is a strong wood that is also very flexible. The flexibility makes an ash bat tend to flex rather than break giving the hitter a more forgiving sweet spot.

BIRCH

is a wood that has the hardness of maple with the flexibility of ash. Players are finding these bats perform consistently better than other woods and have a significantly lower breakage rate, enhancing hitting performance.

MAPLE

remains to be the most popular wood in baseball as it is the hardest and most dense wood we offer. When hit properly it produces the most pop of any bat. We use only premium Northeastern Rock Maple which is extremely hard but has less flexibility when compared to ash or birch.

BAT KNOBS

[THESE KNOBS] CAN BE ORDERED WITH ANY BAT.

LARGE KNOB

XLARGE KNOB

DT71

MEDIUM BARREL
Barrel = 2 1/2" | Handle = 15/16"
Knob = Traditional 2" knob
This originally is from the C271. DTB made the changes necessary to give the midsection more strength, and it is an excellent metal to wood transition.

DT41

MEDIUM BARREL [m]
Barrel = 2 1/2"
Handle = 15/16"
Knob = Traditional 1 31/32" knob
A great contact bat for ALL players; DT41 has a very long barrel, and a good knob size to wrap the pinky finger over. A big brother to the 243.

LI89

MEDIUM BARREL [m]
Barrel = 2 1/2"
Handle = 1"
Knob = Flared 2 1/4" knob
You wouldn't believe how this flared knob pulls the barrel through the zone; has incredible pop, and creates bat speed.

TYS

MEDIUM BARREL [m]
Barrel = 2 1/2"
Handle = 15/16"
Knob = Traditional 2" knob
Long barrel and sweet spot, not end heavy and nice whip!

Z331

MEDIUM BARREL [m]
Barrel = 2 1/2"
Handle = 31/32"
Knob = Flared 2 1/4" knob
Equivalent to the LI89, the Z331 has a longer barrel with great balance and feel with a flared knob.

D6

MEDIUM BARREL [m]
Barrel = 2 1/2"
Handle = 15/16"
Knob = Traditional 1 15/16" knob
D6 is an original DTB design with incredible balance and loads of POP!

CB15

MEDIUM BARREL

Barrel = 2 1/2"
Handle = 15/16"
Knob = Flared 2" knob
Today, the most popular bat in baseball is the CB15 with its small 2" flared knob and good balance!

S318

MEDIUM BARREL [m]

Barrel = 2 1/2"
Handle = 15/16"
Knob = Traditional 1 31/32" knob
The S318 is a very nice bat with a lot of barrel and good flex to create bat speed.

243

LARGE BARREL [m]

Barrel = 2 17/32"
Handle = 15/16"
Knob = Traditional 2" knob
The 243 is an old standby that has attracted many pros. Good sized barrel with decent balance, and a slightly flared knob.

356

LARGE BARREL [m]

Barrel = 2 17/32"
Handle = 29/32"
Knob = Traditional 1 31/32" knob
This bat has a traditional knob with a very large barrel and extremely balanced sweet spot.

113

LARGE BARREL

Barrel = 2 17/32"
Handle = 15/16"
Knob = Traditional 1 15/16" knob
This bat is similar to the 356 model. A very popular bat in pro ball, this bat's thinner handle creates more whip through the strike zone.

267

LARGE BARREL

Barrel = 2 17/32"
Handle = 15/16"
Knob = Traditional 2 1/32" knob
Comparable to the B-267, this bat has an end-loaded barrel with a long sweet spot.

JF3 [m]

Barrel = 2 17/32"
Handle = 15/16"
Knob = Traditional 1 15/16" knob
The JF3 is a beefed up version of the 243. This bat carries a lot of pop and can be modified for minor leaguers.

M110 [m]

Barrel = 2 17/32"
Handle = 1"
Knob = Traditional 1 15/16" knob
A very durable bat, the M110 has great balance and pop. Its handle gives a much stiffer feel.

176

Barrel = 2 17/32"
Handle = 1 1/32"
Knob = Custom 1 22/32" knob
Designed for one of our employees who played pro ball this knob helped with his hamate bone surgery.

174

Barrel = 2 17/32"
Handle = 7/8"
Knob = Traditional 2" knob
This is a power hitters bat. The handle is very thin which creates a lot of whip for the end loaded large barrel.

A2

Barrel = 2 17/32"
Handle = 15/16"
Knob = Traditional 1 31/32" knob
Can you handle the big gun? This bat has a long sweet spot. Its very large barrel with loaded end will get the ball traveling.

CU26 [m]

Barrel = 2 17/32"
Handle = 29/32"
Knob = Traditional 1 29/32" knob
This is Chase Utley's choice bat being end-loaded and ready to hit.

[m] = AVAILABLE IN MINOR LEAGUE VERSIONS

PRO MODELS

2014

PRODUCT CATALOG

H238

EXTRA LARGE BARREL
Extra Large Barrel
Barrel = 2 9/16"
Handle = 15/16"
Knob = Traditional 2" knob
This bat is our largest Pro barrel. Very end loaded with a long sweet spot.

J31

EXTRA LARGE BARREL [m]
Barrel = 2 9/16"
Handle = 15/16"
Knob = Flared 2 1/2" knob
The J31 is similar to the 2331 model. Its characteristics are a larger knob and barrel, good balance, and smooth to swing.

P1

EXTRA LARGE BARREL
Barrel = 2 19/32"
Handle = 15/16"
Knob = Traditional 1 15/16" knob
A real Big HITTERS bat! The P1 is end-loaded to drive the ball deep.

491B

EXTRA LARGE BARREL
Barrel = 2 9/16"
Handle = 15/16"
Knob = Traditional 1 31/32" knob
This medium handle will give the extra large barrel the whip it needs to crush the ball. Very similar to the A2 only with a slightly larger barrel.

[m] = AVAILABLE IN MINOR LEAGUE VERSIONS WITH A 2 1/2" BARREL FOR BETTER BACK SPIN AND USING A MORE DENSE PIECE OF LUMBER.

YOUTH MODELS

2014

PRODUCT CATALOG

Aspiring young players from Little League to high school will benefit from the models offered especially for them. These bats can be customized just like our pro models with colors, logos and engraving. They are available in 27"-31.5" lengths.

2331

MEDIUM BARREL

Barrel = 2 1/2"
Handle = 31/32"
Knob = Flared 2 1/4" knob
Equivalent to the Li89, the 2331 has a longer barrel with great balance and feel with a flared knob.

DT41

MEDIUM BARREL

Barrel = 2 1/2"
Handle = 15/16"
Knob = Traditional 1 31/32" knob
A great contact bat for ALL players; DT41 has a very long barrel, and a good knob size to wrap the pinky finger over. A big brother to the 243.

From the first time I swung Dove Tail Bats I immediately noticed a difference in the way the ball was coming off my bat. They created a bat for me that had great balance and generated lots of pop. The DTB ash bat is very durable and hard with excellent grains; not easily broken and you don't have to worry about flaking. Truly the best ash I've ever swung.

Ryan Dent

COACHES & TRAINING

Every player who strives to take their game to the next level of play requires tools to facilitate his improvement and at Dove Tail Bat we offer unique patented products available only with the DTB logo. Our patented training bat and one hand trainer with their audible detection inspires perfection in every swing. Once coaches use our fungos they will never swing another.

The Dove Tail Training bat is unlike any other on the market today. It is a wooden baseball bat, just like a player would use in their games. The new patented Dove Tail Training Bat is a useful tool for hitters young and old alike, using acrylic sleeves to give an audible detection when the ball is not hit properly. It is a terrific tool to enable seasoned hitters to learn to get their hands through on an inside pitch and enable them to wait on an outside pitch, teaching them to hit more consistently. It can be used for work on a tee, in a batting cage (with pitches not to exceed 84mph), or in live batting practice. This training bat has the same weight and feel as a traditional wood baseball bat. They come with an approx - 3oz. drop.

The one hand trainer is just like our Training Bat, using the same patented acrylic sleeves for an audible detection on improperly hit balls. It is available in 27" and 28" lengths and is a 25 oz. bat.

TRAINER

TRAINER - LARGE BARREL

Barrel = 2 7/16"
Handle = 1"
Knob = Traditional 1 7/8" knob
Made in 27"-34" lengths

BAT BAG

Our bat bags are custom made of 600d polyester duck with handles and shoulder straps made of 1.5" Polypropylene webbing. The standard bag measures 36" l x 8" w x 7"h. It's "4 attach point" shoulder strap is provided for even load distribution. The bag is structurally enhanced by the use of embossed welt as piping around the body of the bag and includes a plastic insert to add to its stability.

Our catchers bag is both a pro-back ("D" top) and fast-back (straight zipper) models. It measures 36" l x 16" w x 16" h. The bag comes with 3 pockets. One long pocket on one side, and two shorter pockets on the opposite side.

These bags are available in a large assortment of colors: Red, Green, Dk Green, Navy, Royal, Orange, Athletic Yellow, Brown, Tan, Black, White, and Purple. All come with a lifetime warranty.

BATting GLOVES

These gloves are professional quality gloves. Embossed leather palmed with breathable mesh back and knuckle area for extreme comfort. Heavy duty Velcro and neoprene wrist bands for durability and comfort. Available in five sizes: sm, med, large, xl and xxl and come in five color choices: white, navy, royal, red and black. All colors have a gray palm. Available in our Advantage series and our Elite series.

(Shown in Advantage Series only)

"The bat feels amazing. It has great balance and pop. There is a different sound with the Dove Tail Bats. I would put this product up against any of the bats that I have swung. Thank you Mark I am so thankful for the support you have given me."
